Case Medical

Medical Ink & Adhesive Remover

ccording To Federal Register / Vol. 77, No. 58 / Monday, 1 Date of Iss	March 26, 2012 / Rules And Regulations sue: 10/24/2017 Version
ECTION 1: IDENTIFICATION	
1.1. Product Identifier	
Product Form: Mixture	
Product Name: Medical Ink & Adhesive	Remover
Product Code: CSR011	
L.2. Intended Use of the Product	
Jse of the Substance/Mixture: Ink & Ta	pe Remover. Ready to use.
L.3. Name, Address, and Telepho	one of the Responsible Party
Company	
Case Medical Inc.	
50 West St.	
Bloomfield, NJ 07003	
201-313-1999	
www.casemed.com	
nfo@casemed.com	
I.4. Emergency Telephone Numl	
mergency Number	: For Emergency contact CHEMTREC (24 hour Number) +1-800-424-9300
ECTION 2: HAZARDS IDENTIFICAT	ΓΙΟΝ
2.1. Classification of the Substan	ice or Mixture
GHS-US Classification	
lam. Liq. 3 H226	
Eye irritation, Category 2A H319

Safety Data Sheet According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

clothing. Rinse skin with water/shower.

P321 - Specific treatment (see section 4 on this SDS).

P333+P313 - If skin irritation or rash occurs: Get medical advice/attention.

P362+P364 - Take off contaminated clothing and wash it before reuse.

P370+P378 - In case of fire: Use appropriate media (see section 5) to extinguish.

P391 - Collect spillage.

P403+P235 - Store in a well-ventilated place. Keep cool.

P501 - Dispose of contents/container in accordance with local, regional, national, and international regulations.

2.3. Other Hazards

Exposure may aggravate pre-existing eye, skin, or respiratory conditions.

2.4. Unknown Acute Toxicity (GHS-US)

No data available

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

3.1. Substance

Not applicable

3.2. Mixture

Name	Product Identifier	%
Isopropylideneglycerol	(CAS-No.) 100-79-8	90-100

Full text of H-phrases: see section 16

SECTION 4: FIRST AID MEASURES

4.1. Description of First-aid Measures

First-aid Measures General: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).

First-aid Measures After Inhalation: When symptoms occur: go into open air and ventilate suspected area. Obtain medical attention if breathing difficulty persists.

First-aid Measures After Skin Contact: Immediately remove contaminated clothing. Obtain medical attention if irritation/rash develops or persists. Immediately drench affected area with water for at least 15 minutes.

First-aid Measures After Eye Contact: Remove contact lenses, if present and easy to do. Continue rinsing. Rinse cautiously with water for at least 15 minutes. Obtain medical attention.

First-aid Measures After Ingestion: Rinse mouth. Do NOT induce vomiting. Obtain medical attention.

4.2. Most Important Symptoms and Effects Both Acute and Delayed

Symptoms/Injuries: Skin sensitization. Causes skin irritation.

Symptoms/Injuries After Inhalation: Prolonged exposure may cause irritation.

Symptoms/Injuries After Skin Contact: May cause an allergic skin reaction. Redness, pain, swelling, itching, burning, dryness, and dermatitis.

Symptoms/Injuries After Eye Contact: May cause slight irritation to eyes.

Symptoms/Injuries After Ingestion: Ingestion may cause adverse effects.

Chronic Symptoms: None known.

4.3. Indication of Any Immediate Medical Attention and Special Treatment Needed

If exposed or concerned, get medical advice and attention. If medical advice is needed, have product container or label at hand.

SECTION 5: FIRE-FIGHTING MEASURES

5.1. Extinguishing Media

Suitable Extinguishing Media: Wter spray, multipurpose powderr, Alcohol resistant Aqueous Film Forming Foam **Unsuitable Extinguishing Media:** Donot use solid water stream as it may scatter and spread fire.

5.2. Special Hazards Arising From the Substance or Mixture

Fire Hazard: Combustible liquid.

The pressure in sealed containers can increase under the influence of heat

Reactivity: Stable at normal ambient temperature and pressure.

5.3. Advice for Firefighters

Precautionary Measures Fire: Exercise caution when fighting any chemical fire.

Firefighting Instructions: Use water spray or fog for cooling exposed containers. In case of major fire and large quantities: Evacuate area. Fight fire remotely due to the risk of explosion.

Protection During Firefighting: Do not enter fire area without proper protective equipment, including respiratory protection.

Safety Data Sheet

According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Other Information: Do not allow run-off from fire fighting to enter drains or water courses.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1. Personal Precautions, Protective Equipment and Emergency Procedures

General Measures: Avoid breathing (vapor, mist, spray). Do not get in eyes, on skin, or on clothing. Keep away from heat, hot surfaces, sparks, open flames, and other ignition sources. No smoking. Use special care to avoid static electric charges.

6.1.1. For Non-Emergency Personnel

Protective Equipment: Use appropriate personal protective equipment (PPE).

Emergency Procedures: Evacuate unnecessary personnel. Stop leak if safe to do so.

6.1.2. For Emergency Personnel

Protective Equipment: Equip cleanup crew with proper protection.

Emergency Procedures: Upon arrival at the scene, a first responder is expected to recognize the presence of dangerous goods, protect oneself and the public, secure the area, and call for the assistance of trained personnel as soon as conditions permit. Ventilate area. Eliminate ignition sources.

6.2. Environmental Precautions

Collect spillage. Prevent entry to sewers and public waters. Avoid release to the environment.

6.3. Methods and Materials for Containment and Cleaning Up

For Containment: Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. As an immediate precautionary measure, isolate spill or leak area in all directions.

Methods for Cleaning Up: Absorb and/or contain spill with inert material. Transfer spilled material to a suitable container for disposal. Do not take up in combustible material such as: saw dust or cellulosic material. Use only non-sparking tools. Clean up spills immediately and dispose of waste safely. Contact competent authorities after a spill.

6.4. Reference to Other Sections

See Section 8 for exposure controls and personal protection and Section 13 for disposal considerations.

SECTION 7: HANDLING AND STORAGE

7.1. Precautions for Safe Handling

Additional Hazards When Processed: Handle empty containers with care.

Precautions for Safe Handling: Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Avoid prolonged contact with eyes, skin and clothing. Avoid breathing vapors, mist, spray. Take precautionary measures against static discharge. Use only non-sparking tools.

Hygiene Measures: Handle in accordance with good industrial hygiene and safety procedures.

7.2. Conditions for Safe Storage, Including Any Incompatibilities

Technical Measures: Comply with applicable regulations. Take action to prevent static discharges. Ground and bond container and receiving equipment. Use explosion-proof electrical, ventilating, and lighting equipment.

Storage Conditions: Store in a dry, cool place. Keep/Store away from direct sunlight, extremely high or low temperatures and incompatible materials. Store in a well-ventilated place. Keep container tightly closed. Keep in fireproof place.

Incompatible Materials: Strong acids, strong bases, strong oxidizers.

7.3. Specific End Use(s)

Ink & Tape Remover. Ready to use.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1. Control Parameters

For substances listed in section 3 that are not listed here, there are no established exposure limits from the manufacturer, supplier, importer, or the appropriate advisory agency including: ACGIH (TLV), AIHA (WEEL), NIOSH (REL), or OSHA (PEL).

8.2. Exposure Controls

Appropriate Engineering Controls

- : Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Ensure adequate ventilation, especially in confined areas. Ensure all national/local regulations are observed. Gas detectors should be used when flammable gases or vapors may be released. Proper grounding procedures to avoid static electricity should be followed. Use explosion-proof equipment.
- **Personal Protective Equipment**
- : Gloves. Protective clothing. Protective goggles. Insufficient ventilation: wear respiratory protection.

Safety Data Sheet

According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Materials for Protective Clothing	: Chemically resistant materials and fabrics.
Hand Protection	: Wear protective gloves.
Eye and Face Protection	: Chemical safety goggles.
Skin and Body Protection	: Wear suitable protective clothing.
Respiratory Protection	: If exposure limits are exceeded or irritation is experienced, approved respiratory protection should be worn. In case of inadequate ventilation, oxygen deficient atmosphere, or where exposure levels are not known wear approved respiratory protection.

	protection.
Other Information	: When using, do not eat, drink or smoke.
SECTION 9: PHYSICAL AND CHE	MICAL PROPERTIES
9.1. Information on Basic Phys	sical and Chemical Properties
Physical State	: Liquid
Appearance	: Colorless to light yellow
Odor	: Slight
Odor Threshold	: No data available

· NO uata available
: 6-7
: No data available
: No data available
: -146°F (-99°C)
: Boiling point range 361-376°F (183-191 °C)
: 91 °C Closed Cup (196 °F)
: 734 °F (390°C)
: No data available
: Not applicable
: 0.004mmHg
: 2.6
: 1.069
: Water solubility: completely soluble
: No data available
: 11 mPa.s (68°F(20°C))
ion available

SECTION 10: STABILITY AND REACTIVITY

10.1. Reactivity: Stable at normal ambient temprerature and pressure

10.2. Chemical Stability: Stable under recommended storage conditions

10.3. Possibility of Hazardous Reactions: Hazardous polymerization will not occur.

10.4. Conditions to Avoid: Keep away from open flames, hot surfaces and sources of ignition

10.5. Incompatible Materials: Strong acids, strong bases, strong oxidizers.

10.6. Hazardous Decomposition Products: Oncombustion or on thermal decomposition (Pyrolysis) releases Carbon monixide, carbon dioxide and unburned hydrocarbons

SECTION 11: TOXICOLOGICAL INFORMATION

11.1. Information on Toxicological Effects

Acute Toxicity

Acute Oral toxicity: LD50: 7000mg/kg- Rat. Not classified as hazardous for acute oral toxicity according to GHS Acute Inhalation toxicity: LC50: 4h (aerosol: >5.11 mg/l Rat. Not classified as hazardous for acute inhalation toxicity according to GHS

Acute Dermal toxicity: LD50: 2000 mg/kg Rat. Not classified hazardous for acute dermal toxicity according to GHS Respiratory or Skin Sensitization: Maximization Test- Guinea pig. Not classified as sensitizing bk skin contact

Carcinogenicity: This product does not contain any ingredient designited as probable or suspected human carcinogens by:NTP **Reproductive Toxicity:** Reproduction/developmental toxicity screening test – Rat oral

Genearl toxicity patent NOAL : 1000 mg/kg bw/day

Gavege, highest dose tested, no impairment of fertility has been observed. Unpublished results

Aspiration Hazard: No data aviable

Safety Data Sheet

According to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

12.1. Toxicity	
Ecology - General	: Not harmful to aquatic life
12.2. Persistence and	l Degradability
Medical Ink & Adhesive Re	mover
Persistence and Degradabi	lity The product is not considered to be rapidly degradable in the enviroment
12.3. Bioaccumulativ	e Potential
Medical Ink & Adhesive Re
