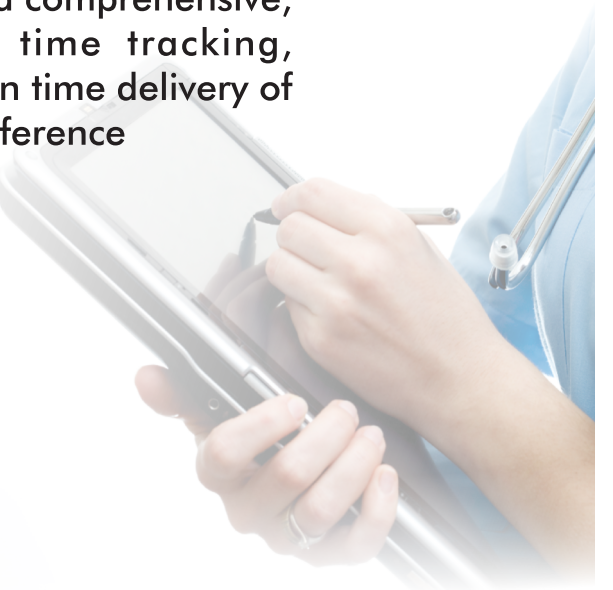
Loaner Locate™

Finally, a software program designed to streamline and manage the loaner tray process. Easy to use, intuitive and comprehensive, Loaner Locate meets the needs for real time tracking, communication between all stakeholders, and on time delivery of borrowed, critical devices based on Surgeon's Preference



Addresses the Challenge of Managing Loaners

- Coordinate with OR schedule
- Locate instrument sets in real time
- Trace sets to patients for infection prevention
- Automate email messaging and scheduling updates
- Configure trays to Surgeon's Preference
- Meet current standards and facility requirements
